Part A: Pupil premium strategy plan

Statement of intent

When making decisions about using Pupil Premium funding it is important to consider the context of the school and the subsequent challenges faced. This alongside research conducted by the EEF. Common barriers to learning for disadvantaged children can be: less support at home, weaker language and communication skills, lack of confidence/ low self-esteem, more frequent behaviour difficulties and attendance issues. There may also be complex family situations that prevent children from flourishing. The challenges can often be varied. We will ensure that all teaching staff are involved in the analysis of data and identification of pupils, so that they are fully aware of strengths and areas for development across the school.

We are a one form entry primary school with 25% eligible Pupil Premium children (compared to the national average of 20.8%).

Ultimate Objectives

The objectives for our disadvantaged pupils are ultimately to close the attainment gap between disadvantaged and non-disadvantaged pupils nationally and also within internal school data (providing the best life chances for each and every disadvantaged child). This will include supporting these children academically, but also socially and emotionally, ensuring that they are able to learn effectively.

Attendance will be a key focus for some children, ensuring that this does not fall below expected levels and have a negative impact on their learning.

Achieving the objectives

The range of provision for this group include and would not be limited to:

- 1:1 support
- Additional teaching and learning opportunities provided by trained TAs
- All work through the pupil premium will be aimed at accelerating progress, moving children to at least age related expectations.
- Additional pastoral support.
- Paying for or subsidising educational visits/visitors and residential visits ensuring that all children have first-hand experiences to use in their learning in the classroom.
- Behaviour and nurture support where necessary.
- Attendance support and monitoring.
- Effective professional development for teaching staff, resulting in high quality teaching and learning day in, day out.

- Effective professional development for teaching assistants who will be taking children for 1:1 or small group sessions.

This list is not exhaustive and will change according to the needs and support that our socially disadvantaged pupils require.

Challenges

This details the key challenges to achievement that we have identified among our disadvantaged pupils.

Challenge number	Detail of challenge
1	Pastoral support needed for some pupils due to anxiety, poor sleep, low self-esteem. Complex family situations and social service involvement with increasing numbers of families requiring access to the Early Help Pathway.
2	Lower attendance last academic year compared to non-PP children. Persistent Absence is higher for PP children compared to Non PP children as well as unauthorised absences.
3	Gaps in basic English and Maths skills. Loss of resilience and engagement with learning. Ensuring all children are making the same progress regardless of starting points in order to work at the expected standards for Reading, Writing and Maths.
4	Pupil Premium children as a group are not reaching the same attainment as non-pupil premium children, particularly at greater depth standard.
5	Insecure knowledge of how to support struggling learners particularly in KS2 for Maths.
6	PP/SEND overlap is 24% Ensuring that SEND pupils are making good progress in regard to their additional need.

Intended outcomes

This explains the outcomes we are aiming for **by the end of our current strategy plan**, and how we will measure whether they have been achieved.

Intended outcome	Success criteria
The attainment gap between PP / non PP children will narrow in R, W and M in all year groups.	Gaps to close in each year group between PP and non PP children in Reading. Gaps to close in each year group between PP and non PP children in Writing. Gaps to close in each year group between PP and non PP children in Maths.

<p>PP pupils to make good or better progress in R, W and M in all year groups.</p>	<p>Reading progress to be in line with prior key stage data in Reading. Writing progress to be in line with prior key stage data in Writing. Maths progress to be in line with prior key stage data in Maths.</p>
<p>Emotional and social well-being to be supported for disadvantaged pupils.</p>	<p>Pupils supported through 1:1 support and group activities. Children to feel happier, engaged and self-esteem to be improved. Well-being improved through tracked interventions enabling greater focus and confidence with learning.</p>
<p>Increased awareness of good attendance in school with parents and pupils. Increased attendance in disadvantaged pupils.</p>	<p>PP and non PP gaps to close regarding school attendance figures (last academic year PP 91.35% and non PP 95.53%). Close the gap with PA pupils (last academic year PP PA was 24.24% compared to Non PP 11.17%). Reduce unauthorised absences with PP children (Last academic year PP 36.36% compared to non PP children 10.64%).</p>

Activity in this academic year

This details how we intend to spend our pupil premium (and recovery premium funding) **this academic year** to address the challenges listed above.

Teaching (for example, CPD, recruitment and retention)
